Hand-carved

New, modern interpretation of the fireplace in the Italian Renaissance spirit. The emphasis is placed on the form, proportions and ease of perception.

Narrow pilasters. Caps are decorated with floating dolphins. Frieze of the fireplace is deliberately left untouched, without any carvings, but the fireplace screen may have a bronze monogram. An intricate mantel of the fireplace is amazing in its execution. Pay attention to the beads that are executed with the repeated pinpoint accuracy. Beautiful fine profile over the beads. Three mantel plates, different in pattern, ideally converge to the corners. One of them, with egg and tongue, has the acanthus leaves in every corner.

Fireplace cost is on demand.
